# Summary of findings

## Overall summary

Roxburgh House Care Home is a residential home registered to provide accommodation and personal care for up to 38 older people. The single storey building is separated into two areas; a 23 bed residential unit and a 15 bed unit for people living with dementia. At the time of this inspection there were 38 people living at the home.

We found the following examples of good practice:

- Staff were wearing the required personal protective equipment (PPE). They were aware of the correct process for the taking on and off of PPE, and its safe disposal in accordance with the relevant national guidance.
- A testing programme was in place to frequently test staff and people living at the home.
- The environment was clean and hygienic. Cleaning schedules were in place and cleaning was carried out frequently throughout the day, including touch point cleaning.
- Comprehensive policies, assessments and processes were in place to minimise risk during the pandemic to people living at the home and the staff team.
- The home had built a log cabin in the grounds to support families and friends to visit their loved ones. The cabin was large enough to support social distancing and included a mobile unit for hand washing and sanitising.
- There was an established and consistent staff team which meant the home had not needed to source temporary staff externally.

## The five questions we ask about services and what we found

We always ask the following five questions of services.

### **Is the service safe?**

Further information is in the detailed findings below.

**Inspected but not rated**

# Roxburgh House Care Home

## **Detailed findings**

## Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to the coronavirus pandemic we are looking at the preparedness of care homes in relation to infection prevention and control. This was a targeted inspection looking at the infection control and prevention measures the provider has in place.

This inspection took place on 3 March 2021 and was announced.

# Is the service safe?

## Our findings

S5□ How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
