

# Dunsville Medical Centre

## Inspection report

126-128  
High Street, Dunsville  
Doncaster  
DN7 4BY  
Tel: 01302890108  
[www.dunsvillemedicalcentre.nhs.uk](http://www.dunsvillemedicalcentre.nhs.uk)

Date of inspection visit: 3 March 2020  
Date of publication: 06/04/2020

This report describes our judgement of the quality of care at this service. It is based on a combination of what we found when we inspected, information from our ongoing monitoring of data about services and information given to us from the provider, patients, the public and other organisations.

## Ratings

### Overall rating for this location

Good 

Are services safe?

Good 

# Overall summary

We carried out an announced comprehensive inspection at Dunsville Medical Centre on 16 April 2019 and the practice was rated as good overall and requires improvement for providing safe services because:

- The practice did not consistently have clear systems and processes to assess and mitigate risks to keep patients safe.

At this inspection we followed up on the breach of regulation identified at the previous inspection in April 2019.

We based our judgement of the quality of care at this service on a combination of:

- what we found when we inspected
- information from our ongoing monitoring of data about services and
- information from the provider, patients, the public and other organisations

We rated the practice as **good** for providing safe services because:

- The practice had reviewed systems and processes to assess, monitor and manage risks to patient safety.

Whilst we found no breaches of regulations, the provider **should:**

- Continue with plans to improve the system for regularly checking the registration of clinical staff.

**Details of our findings and the evidence supporting our ratings are set out in the evidence tables.**

**Dr Rosie Benneyworth BM BS BMedSci MRCGP**

Chief Inspector of Primary Medical Services and Integrated Care

## Population group ratings

## Our inspection team

Our inspection team was led by a CQC lead inspector.

## Background to Dunsvillle Medical Centre

Dunsvillle Medical Centre is located in Dunsvillle on the outskirts of Doncaster.

The practice registered with the CQC as an individual provider practice in February 2019. They are registered with CQC to deliver the Regulated Activities; diagnostic and screening procedures, maternity and midwifery, family planning and treatment of disease, disorder or injury.

Dunsvillle Medical Centre is situated within the Doncaster Clinical Commissioning Group (CCG) and provides services to 5231 patients under the terms of a primary medical services (PMS) contract. This is a contract between general practices and NHS England for delivering services to the local community.

The practice has one GP, two advanced nurse practitioners, two nurses, two health care assistants and a pharmacist. Non clinical support is provided by a practice manager and an experienced administration/reception team.

The Public Health National General Practice Profile shows that around 96% of patients are of a White/British origin. The level of deprivation within the practice population is rated as five, on a scale of one to ten. Level one represents the highest level of deprivation; and level ten the lowest. The practice has a lower than average number of patients aged over 65 years. The age/sex profile of the practice shows a higher number of patients aged between five and 14 years registered at the practice. The average life expectancy for patients at the practice is 79 years for men and 82 years for women, compared to the national average of 79 years and 83 years respectively.
