Overall summary

We carried out an GP focused inspection at The Acorn & Gaumont House Surgery on the 14 December 2020 as part of our inspection programme.

This report was created as part of a pilot which looked at new and innovative ways of fulfilling CQC's regulatory obligations and responding to risk in light of the Covid-19 pandemic. This was conducted with the consent of the provider. Unless the report says otherwise, all information contained within this report was obtained remotely from the provider.

We previously inspected The Acorn & Gaumont House Surgery on 12 March 2020. At this time, we rated the practice Requires improvement overall. Details of this report can be found by selecting the 'all reports' link for The Acorn & Gaumont House Surgery on our website at www.cqc.org.uk.

The focused inspection looking at safe and well-led undertaken on 14 December 2020 did not review the ratings for the key questions or for the practice overall as this was a focused inspection undertaken as part of ongoing monitoring.

We based our judgement of the quality of care at this service on a combination of:

- what we found when we inspected
- information from our ongoing monitoring of data about services and
- information from the provider, patients, the public and other organisations.

At this focused inspection we found:

- There was an effective system for managing patients on high risk medicines.
- Clinical record reviews were completed appropriately.
- There were clear staffing structures, with all staff being aware of roles and responsibilities.

Details of our findings and the evidence supporting our ratings are set out in the evidence tables.

Dr Rosie Benneyworth BM BS BMedSci MRCGP

Chief Inspector of Primary Medical Services and Integrated Care
