Why we carried out this inspection

This inspection was a focused inspection in response to aged ratings.

How we carried out the inspection

This inspection was carried out in a way which enabled us to spend a minimum amount of time on site.

This included:

- Conducting staff interviews using video conferencing.
- Completing clinical searches on the practice's patient records system (this was with consent from the provider and in line with all data protection and information governance requirements).
- Reviewing patient records to identify issues and clarify actions taken by the provider.
- Requesting evidence from the provider.
- A short site visit.

Our findings

We based our judgement of the quality of care at this service on a combination of:

- what we found when we inspected
- information from our ongoing monitoring of data about services and
- information from the provider, patients, the public and other organisations.

We found that:

- The practice provided care in a way that kept patients safe and protected them from avoidable harm.
- Patients received effective care and treatment that met their needs.
- The practice regularly reviewed its access arrangements for patients

Overall summary

- The practice used clinical audits to improve care and treatment.
- The practice dealt with complaints in a timely manner and learned from them.
- The way the practice was led and managed promoted the delivery of high-quality, person-centre care.

Whilst we found no breaches of regulations, the provider should:

- Continue to develop medicines stewardship including their response to important safety alerts.
- Continue to improve their monitoring of patients with long term conditions such as diabetes and asthma.
- Seek ways in implementing a freedom to speak up guardian.

Details of our findings and the evidence supporting our ratings are set out in the evidence tables.

Dr Sean O’Kelly BSc MB ChB MSc DCH FRCA

Chief Inspector of Hospitals and Interim Chief Inspector of Primary Medical Services

Our inspection team

Our inspection team was led by a CQC lead inspector who spoke with staff using video conferencing facilities and undertook a site visit. The team included a GP specialist advisor who spoke with staff using video conferencing facilities and completed clinical searches and records reviews without visiting the location.

Background to Wolseley Medical Centre

Wolseley Medical Centre is located at Londesborough Street, Hull, HU3 1DS.

The provider is registered to deliver the regulated activities of diagnostic and screening procedures; family planning; maternity and midwifery services; treatment of disease, disorder or injury; and surgical procedures.

The practice is situated within the NHS Humber and North Yorkshire Integrated Care Board (ICB) and delivers a General Medical Services contract (GMS) to a patient population of over 7,600 patients. This is part of a contract held with NHS England. The practice is part of a wider Primary Care Network (PCN).

Information published by Office for Health Improvement and Disparities shows that deprivation within the practice population group is on the 1st decile (1 of 10). The lower the decile, the more deprived the practice population is relative to others. The practice population is 85.2% white with the remainder of the population being mixed.

The practice is open between 8am to 6.30pm Monday to Friday and provides extended hours on a rotational basis across its sites. The practice offers a range of appointment types including telephone consultations and advance appointments. The practice has 4.0 wholetime equivalent GPs, 1.9 nurses, 2.5 direct care staff and 11.3 administration and non-clinical staff.

Out of hours services are provided by 111 and additional extended hours within the PCN.
