Summary of findings

Overall summary

Wray Park Care Home is a residential care home providing personal care and accommodation to up to 24 older people and people living with dementia. At the time of the inspection the service was supporting 10 people.

We found the following examples of good practice.

- The provider had put facilities and a booking system in place to enable people to visit the service safely during the COVID-19 pandemic.
- People using the service and staff were tested regularly for COVID-19 in accordance with current guidelines.
- Staff had completed training about COVID-19 and how to prevent the spread of the virus. People who had tested positive for COVID-19 were being isolated in their rooms appropriately.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?

We were assured the service were following safe infection prevention and control procedures to keep people safe.

Wray Park Care Home

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to care homes with outbreaks of coronavirus, we are conducting reviews to ensure that the Infection Prevention and Control practice was safe and the service was compliant with IPC measures. This was a targeted inspection looking at the IPC practices the provider has in place.

This inspection took place on 14 December 2020 and was announced.

Is the service safe?

Our findings

How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date. However, we found individual risk assessments were not in place for people using the service and staff who were potentially the most vulnerable to COVID-19 and belonged to higher risk groups. The provider assured us they would complete these immediately following our inspection.

We have also signposted the provider to resources to develop their approach.
