Summary of findings

Overall summary

Wentworth House provides residential accommodation for up to 14 older people who do not require nursing care, at the time of the inspection visit 12 people lived at the home. The home has two floors and offers individual bedroom accommodation. Two lounges and dining areas are available on the ground floor. Parking is available on the forecourt of the home.

We found the following examples of good practice.

The service had dedicated staff to ensure people were received safely and continued to be supported in the service in accordance with national guidance. They supported people and their relatives to understand the policies and procedures surrounding protection against COVID 19, the isolation processes and how the service could help them to keep people safe.

Social media platforms were used to facilitate contact between people and their relatives where physical visiting was not possible. Where appropriate, people were supported by staff to use this form of communication. In addition, visiting by relatives was taking place with protocols in place to ensure peoples safety. One person said, "We get to see my relatives which is what I want. I do keep in touch with them and the staff are very good here."

During our visit we observed the staff using Personal Protective Equipment, (PPE) safely. The registered manager told us sufficient stocks of PPE were available and we confirmed this on the visit.

People who lived at the home and staff were tested regularly for COVID-19. There were no staff employed who had not been vaccinated as now required.

The home was clean and hygienic. Cleaning schedules were in place and PPE stations placed around the home.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?

Further information is in the detailed findings below.

Wentworth House

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to the COVID-19 pandemic we are looking at how services manage infection control and visiting arrangements. This was a targeted inspection looking at the infection prevention and control measures the provider had in place. We also asked the provider about any staffing pressures the service was experiencing and whether this was having an impact on the service.

This inspection took place on 11 January 2022 and was announced. We gave the service 24 hours notice of the inspection.

Is the service safe?

Our findings

Staffing

- The provider told us they had measures in place to mitigate the risks associated with COVID-19 related staff pressures

How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
- We were assured the provider was facilitating visits for people living in the home in accordance with the current guidance.

From 11 November 2021 registered persons must make sure all care home workers and other professionals visiting the service are fully vaccinated against COVID-19, unless they have an exemption or there is an emergency.

- The service was meeting the requirement to ensure non-exempt staff and visiting professionals were vaccinated against COVID-19.
