Summary of findings

Overall summary

Mears Care - Bromley provides care and support to older people living in specialist 'extra care' housing. Extra care housing is purpose-built or adapted single household accommodation in a shared building. The accommodation is rented and is the occupant's own home. People's care and housing are provided under separate contractual agreements. CQC does not regulate premises used for extra care housing; this inspection looked at people's personal care and support service. At the time of our visit 42 people were using the service.

There was hand sanitising station at the entrance of the building so visitors can sanitise their hands before entering. The provider was permitting visits to people in line with current national guidelines which included regular visits from their relatives. Staff requested to see COVID-19 test results from healthcare professionals visiting people.

Personal protective equipment (PPE) was available for staff and visitors to use. Staff saw staff wearing appropriate PPE including facemask throughout the time of our visit. Staff had received infection control training and they understood the procedures for donning and doffing PPE. Used PPE were disposed appropriately and safely.

There were housekeepers available maintaining the cleanliness and hygiene of the building. The provider had appropriate infection prevention and control policies and procedures in place which staff understood and followed.

People and staff were routinely tested for COVID-19, in line with national guidelines. They had also been vaccinated. Infection control audits took place regularly. People and staff were supported to isolate where they showed symptoms of COVID-19 or received a positive test result.

The registered manager knew the procedures for reporting any positive test results to the local authority's Public Health team and followed guidance provided to manage any risk. There were enough staff on duty to meet people's needs.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Mears Care - Bromley

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to the COVID-19 pandemic we are looking at how services manage infection control and visiting arrangements. This was a targeted inspection looking at the infection prevention and control measures the provider had in place. We also asked the provider about any staffing pressures the service was experiencing and whether this was having an impact on the service.

This inspection took place on 11 February 2022 and was announced/unannounced. We gave the service two hours' notice of the inspection.

Is the service safe?

Our findings

Staffing

- The provider told us they had measures in place to mitigate the risks associated with COVID-19 related staff pressures

How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
