# Summary of findings

## Overall summary

RecoveryHub@East Leeds is a 'care home'. People in care homes receive accommodation and nursing or personal care as single package under one contractual agreement. The service was supporting 18 people at the time of inspection.

We found the following examples of good practice.

The service was accessing the government testing scheme which had assisted them to identify an outbreak quickly.

The home was clean and well ventilated.

There was clear signage available on entry and throughout the home reinforcing infection control procedures. One member of staff said, "We have a culture of good practice."

Staff followed good hand hygiene procedures and wore PPE appropriately. One person said, "Yes its always clean and they [staff] always wear a mask."

The registered manager and staff were assisting people to keep in contact with their families and were in the process of purchasing a pod for the home to enable social distancing visits. This also included a pergola for the garden.

Further information is in the detailed findings below.

## The five questions we ask about services and what we found

We always ask the following five questions of services.

### **Is the service safe?**

We were assured the service was following safe infection prevention and control procedures to keep people safe.

**Inspected but not rated**

# RecoveryHub@EastLeeds

## **Detailed findings**

## Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to care homes with outbreaks of coronavirus, we are conducting reviews to ensure that the Infection Prevention and Control practice was safe and the service was compliant with IPC measures. This was a targeted inspection looking at the IPC practices the provider has in place.

This inspection took place on 2 December 2020 and was announced.

# Is the service safe?

## Our findings

S5□ How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
