Summary of findings

Overall summary

Barley View is a residential care home registered to provide accommodation and personal care for up to 28 older people. The home is a purpose-built property situated in Whitworth. The home has two floors, the ground floor is known as Willow Lane and the first floor is known as Forest Grove. Willow Lane provides care and support for people living with dementia. Accommodation is provided in single bedrooms all with ensuite shower facilities. At the time of the inspection, there were 27 people accommodated in the home.

We found the following areas of good practice:

The nominated individual and registered manager had established robust infection prevention and control procedures which were understood and followed by the staff. All staff had completed training on the use of personal protective equipment (PPE) and participated in the weekly testing programme. The service had plentiful supplies of PPE and stocks were carefully monitored. The staff were well organised into separate teams and had been provided with changing areas.

The premises were kept in a clean and hygienic condition throughout and regular checks were undertaken to ensure infection prevention and control measures were maintained.

Although visiting was subject to government restrictions, the management team had reviewed visiting policies to ensure any visits were carried out safely and based on an individual risk assessment. Management and staff had found different ways to enable people to maintain contact with their relatives which included the use of technology, window visits and outdoor patio visits.

The atmosphere in the home was warm, comfortable and calm. The staff had worked hard to maintain people's spirits and wellbeing.

The provider's infection prevention and control policies and procedures were up to date and an audit had been carried out. The provider had also developed a Covid-19 contingency plan, which set out in detail the continuity of the service during the current pandemic.

We were assured this service met good infection prevention and control guidelines.

Further information is in the detailed findings below.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?

Inspected but not rated

We were assured the service was following safe infection prevention and control procedures, to keep people safe.

Barley View

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to care homes with outbreaks of coronavirus, we are conducting reviews to ensure that the Infection Prevention and Control practice was safe and the service was compliant with IPC measures. This was a targeted inspection looking at the IPC practices the provider has in place.

The inspection took place on 16 November 2020 and was announced.

Is the service safe?

Our findings

S5 - How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
