# Summary of findings

## Overall summary

Sabourn Court Care Home is a residential nursing home in Leeds. The home provides accommodation, personal care and nursing care for older people and people living with dementia. At the time of our inspection there were 33 people using the service.

We found the following examples of good practice.

- □ Visitors had to sign a COVID-19 risk assessment and declaration before entering the building and the pens used were disposed of. There was a supply of ready made PPE packs for visitors if they did not have PPE with them.
- The home completed hand hygiene competency checks on all staff to ensure they were competent in handwashing techniques.
- The home had turned the disused salon into a testing station for staff and service users. Staff nurses and nurse assistants had been trained to perform COVID-19 tests and staff who wanted to self-test were provided with guidance and supported to do so.
- Staff who tested positive and were self isolating would be paid for shifts missed to ensure they complied with testing and self isolation guidance. Staff who tested positive were referred to human resources who would conduct wellbeing calls.

## The five questions we ask about services and what we found

We always ask the following five questions of services.

### **Is the service safe?**

We were assured the service were following safe infection prevention and control procedures to keep people safe.

**Inspected but not rated**

# Sabourn Court Care Home

## **Detailed findings**

### Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

This was a targeted inspection looking at the infection control and prevention measures the provider has in place. As part of CQC's response to the coronavirus pandemic we are conducting a thematic review of infection control and prevention measures in care homes.

This inspection took place on 19 August 2020 and was announced. The service was selected to take part in this thematic review which is seeking to identify examples of good practice in infection prevention and control.

## Is the service safe?

### Our findings

S5 How well are people protected by the protection and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
