Why we carried out this inspection

This inspection was a comprehensive inspection to rate the practice following a change to their registration with CQC. This was therefore the first rated inspection of the service under this provider.

How we carried out the inspection

Throughout the pandemic CQC has continued to regulate and respond to risk. However, taking into account the circumstances arising as a result of the pandemic, and in order to reduce risk, we have conducted our inspections differently.

This inspection was carried out in a way which enabled us to spend a minimum amount of time on site. This was with consent from the provider and in line with all data protection and information governance requirements.

This included:

- Conducting staff interviews using video conferencing.
- Staff questionnaires
- Completing clinical searches on the practice's patient records system and discussing findings with the provider.
- Reviewing patient records to identify issues and clarify actions taken by the provider.
- Requesting evidence from the provider.
- A short site visit.

Our findings

We based our judgement of the quality of care at this service on a combination of:

- what we found when we inspected

Overall summary

- information from our ongoing monitoring of data about services and
- information from the provider, patients, the public and other organisations.

We have rated this practice as Good overall

We found that:

- The practice provided care in a way that kept patients safe and protected them from avoidable harm.
- Patients received effective care and treatment that met their needs.
- Staff dealt with patients with kindness and respect and involved them in decisions about their care.
- The practice adjusted how it delivered services to meet the needs of patients during the COVID-19 pandemic.
- The way the practice was led and managed promoted the delivery of high-quality, person-centre care.

Whilst we found the practice was not in breach of regulations, the provider **should**:

- Continue to develop and improve engagement with staff

Details of our findings and the evidence supporting our ratings are set out in the evidence tables.
