# Summary of findings

## Overall summary

Lavender Lodge is a care home which is registered to provide personal care for up to 24 people. At the time of the inspection the home was providing care and support to 21 people. The home is a detached property with a stair lift to access the upper floors. On the ground floor and first floor there are several communal living areas and bathrooms.

We found the following examples of good practice.

The service had dedicated staff to ensure people were received safely and continued to be supported in the service in accordance with national guidance. They supported people and their relatives to understand the policies and procedures surrounding protection against COVID 19, the isolation processes and how the service could help them to keep people safe.

Social media systems such as mobile phones and computer systems were used to facilitate contact between people and their relatives. One relative said, "They have been really good when it comes to seeing my [relative], no issues with staff, they have been accommodating."

During our visit we observed the staff using Personal Protective Equipment, (PPE) safely. The registered manager told us sufficient stocks of PPE were available and we confirmed this on the visit. A staff member said, "We have always had plenty of PPE."

People living in the home and staff were tested regularly for COVID-19. There were no staff employed who had not been vaccinated as now required.

The home was clean and hygienic. Cleaning schedules were in place and PPE stations placed around the home. Additional cleaning protocols were in place to ensure all areas of the building were regularly sanitised.

## The five questions we ask about services and what we found

We always ask the following five questions of services.

### Is the service safe?

Further information is in the detailed findings below.

**Inspected but not rated**

# Lavender Lodge Care Home

## **Detailed findings**

### Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to the COVID-19 pandemic we are looking at how services manage infection control and visiting arrangements. This was a targeted inspection looking at the infection prevention and control measures the provider had in place. We also asked the provider about any staffing pressures the service was experiencing and whether this was having an impact on the service.

This inspection took place on 13 January 2022 and was announced. We gave the service 24 hours' notice of the inspection.

# Is the service safe?

## Our findings

### Staffing

- The provider told us they had measures in place to mitigate the risks associated with COVID-19 related staff pressures

How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
- We were assured the provider was facilitating visits for people living in the home in accordance with the current guidance.

From 11 November 2021 registered persons must make sure all care home workers and other professionals visiting the service are fully vaccinated against COVID-19, unless they have an exemption or there is an emergency.

- The service was meeting the requirement to ensure non-exempt staff and visiting professionals were vaccinated against COVID-19.
