Summary of findings

Overall summary

RecoveryHub@SouthLeeds is a residential care home in Leeds. The home provides accommodation and personal care for people living with a dementia. At the time of our inspection there were 17 people using the service.

We found the following examples of good practice.

- The home completed competency checks on all staff to ensure they were competent in PPE and handwashing procedures.
- The home had an effective cohorting and zoning policy in place to stop the spread of infection.
- The home had a named clinical lead and on-site clinical support to help manage infection control.
- To support staff wellbeing there were a range of services such as mental health workshops, coffee mornings and signposting to counselling services.

Further information is in the detailed findings below.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?

We were assured the service was following safe infection prevention and control procedures to keep people safe.

RecoveryHub@SouthLeeds

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to care homes with outbreaks of coronavirus, we are conducting reviews to ensure that the Infection Prevention and Control practice was safe and the service was compliant with IPC measures. This was a targeted inspection looking at the IPC practices the provider has in place in response to an outbreak.

This inspection took place on 17 November 2020 and was announced.

Is the service safe?

Our findings

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
