## Inspection report

Birkenhead Medical Building  
31 Laird Street  
Birkenhead  
Merseyside  
CH41 8DB  
Tel: 0151 652 1955  
[www.cavendishmedicalcentre.nhs.uk](http://www.cavendishmedicalcentre.nhs.uk)

Date of inspection visit: 19 February 2019  
Date of publication: 25/03/2019

This report describes our judgement of the quality of care at this service. It is based on a combination of what we found when we inspected, information from our ongoing monitoring of data about services and information given to us from the provider, patients, the public and other organisations.

## Ratings

### Overall rating for this location

Good 

Are services safe?

Good 

Are services effective?

Good 

Are services caring?

Good 

Are services responsive?

Good 

Are services well-led?

Good 

# Overall summary

We carried out an announced comprehensive inspection at Cavendish Medical Centre on 19 February 2019 as part of our inspection programme.

We based our judgement of the quality of care at this service on a combination of:

- what we found when we inspected
- information from our ongoing monitoring of data about services and
- information from the provider, patients, the public and other organisations.

**We have rated this practice as good overall and good for all population groups.**

We found that:

- The practice provided care in a way that kept patients safe and protected them from avoidable harm.
- There was equipment and medicines for use in emergencies and these were checked and documented. Staff were trained in care and treatment of medical emergencies and in how to recognise symptoms when people's conditions become severe, such as in sepsis.
- Blank prescriptions were logged in and out for use at the practice and were stored safely and securely.
- Patients received effective care and treatment that met their needs. We saw that clinicians treated and cared for patients in line with current best practice guidelines and legislation.

- The practice understood the needs of its patients' population and delivered care and treatment tailored to the individual's needs.
- Staff dealt with patients with kindness and respect and involved them in decisions about their care. Feedback from patients was consistently positive about care, treatment and access at this practice.
- The practice organised and delivered services to meet patients' needs. Patients could access care and treatment in a timely way.
- The way the practice was led and managed promoted the delivery of high-quality, person-centre care. There was evidence of quality improvement that included audit and which demonstrated outcome improvements. However, there was no formal audit programme based on national, local and service priorities.

Whilst we found no breaches of regulations, the provider **should:**

- Continue to monitor and actively encourage uptake of childhood immunisations.
- Implement an audit programme/plan that is based on national, local and practice priorities.

**Details of our findings and the evidence supporting our ratings are set out in the evidence tables.**

**Professor Steve Field** CBE FRCP FFPH FRCGP  
Chief Inspector of General Practice

## Population group ratings

<b>Older people</b>	<b>Good</b>	
<b>People with long-term conditions</b>	<b>Good</b>	
<b>Families, children and young people</b>	<b>Good</b>	
<b>Working age people (including those recently retired and students)</b>	<b>Good</b>	
<b>People whose circumstances may make them vulnerable</b>	<b>Good</b>	
<b>People experiencing poor mental health (including people with dementia)</b>	<b>Good</b>	

## Our inspection team

Our inspection team was led by a CQC lead inspector.  
The team included a GP specialist adviser.

## Background to Cavendish Medical Centre

Cavendish Medical Centre is located in a purpose-built healthcare centre in Birkenhead, Wirral. The location of the practice supports easy access with good transport links, car parking facilities and is accessible to those with limited mobility.

The provider is registered with CQC to deliver the Regulated Activities; diagnostic and screening procedures, surgical procedures and treatment of disease, disorder or injury.

Cavendish Medical Centre is situated within the Wirral Clinical Commissioning Group (CCG) and provides services to 5,378 patients under the terms of a general medical services (GMS) contract. This is a contract between general practices and NHS England for delivering services to the local community.

The group practice has five GPs, two male and three female. It registered with the CQC in December 2013. The

practice employs GPs, practice nurse prescribers, healthcare assistants, practice manager and reception and administration staff. The practice is a training practice which supports trainee GPs and medical students.

The practice population age profile is in common with national averages. Information published by Public Health England, rates the level of deprivation within the practice population group as one, on a scale of one to ten. Level one represents the highest levels of deprivation and level ten the lowest. Living in areas of high deprivation could have a negative effect on a person's health (such as higher incidences of disease and multiple morbidity) and add pressures to primary care services.
