Summary of findings

Overall summary

Byrnhill Grove is a 'care home'. People in care homes receive accommodation and nursing or personal care as a single package under one contractual agreement. Byrnhill Grove is registered to provide accommodation for up to 17 people, who have needs associated with advanced age and early stage dementia. At the time of our inspection there were 16 people living in the home.

We found the following examples of good practice.

Safe arrangements were in place for all visitors to the home. These involved visitors to the home showing evidence of a negative rapid flow device (LFD) test and temperature checks.

People were fully supported to maintaining contact with families and loved ones. This contact has been achieved through window and garden visits, video calling, weekly newsletters and access to a visitors booth. The service was following the latest government guidance in relation to visiting.

Staff had access to enough supplies of PPE including facemasks, gloves and aprons and PPE stations were accessible throughout the home.

Staff completed IPC training and were observed to be wearing the correct PPE and following best practice. The premises and equipment were visibly clean and regular cleaning schedules and audits were completed to monitor the IPC standards within the home.

A programme of routine testing for was in place for all people using the service and staff. This meant swift action could be taken should anyone receive a positive result.

The service has a designated as infection control champion. There was also a designated lead for cleaning and decontamination within the service.

There was an up to date infection prevention and control (IPC) policy. Staff were regularly updated with any changes to government guidance and procedures to follow so they could keep themselves, people and visitors safe.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?

Further information is in the detailed findings below.

Byrnhill Grove Registered Care Home

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to care homes with outbreaks of COVID-19, we are conducting reviews to ensure that the Infection Prevention and Control (IPC) practice is safe and that services are compliant with IPC measures. This was a targeted inspection looking at the IPC practices the provider has in place. We also asked the provider about any staffing pressures the service was experiencing and whether this was having an impact on the service.

This inspection took place on 16 February 2022 and was announced. We gave the service 24 hours' notice of the inspection.

Is the service safe?

Our findings

Staffing

- The provider told us they had measures in place to mitigate the risks associated with COVID-19 related staff pressures.

How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.

Visiting in care homes

- People were supported to see their relatives and loved ones both inside and outside the home. The provider had safe processes in place to ensure visits for people living in the home were in accordance with the current government guidance.

From 11 November 2021 registered persons must make sure all care home workers and other professionals visiting the service are fully vaccinated against COVID-19, unless they have an exemption or there is an emergency.

- The Government has announced its intention to change the legal requirement for vaccination in care homes, but the service was meeting the current requirement to ensure non-exempt staff and visiting professionals were vaccinated against COVID-19.
