Summary of findings

Overall summary

Beatrice House is registered to provide accommodation and personal care to a maximum of three people with a learning disability and/or autistic spectrum disorder. At the time of our inspection two people lived at the home.

We found the following examples of good practice.

- Visiting procedures were in place to prevent infection entering the home. A nominated relative could book a slot to visit their family member in line with the new government visiting directive.
- The use of single occupancy bedrooms and en-suite facilities promoted social distancing and minimised infection transmission risks.
- The staff were aware of the safety measures they would need to take for admitting a new person to the home, or admitting a person back into the home from hospital.
- Personal Protective Equipment (PPE) was available throughout the home. Staff wore PPE that met current guidance.
- Staff took a COVID-19 test three times a week and people every 28 days. If people or staff tested positive, they would be required to self-isolate in line with government directives.
- The premises were clean and hygienic. In-depth cleaning was maintained.
- Staff had received a range of training in Infection Prevention Control (IPC) procedures that included, COVID-19 awareness, donning and doffing and testing processes.
- The IPC policy was reviewed regularly. COVID-19 specific guidance for staff was updated as the need arose.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?	Inspected but not rated
10 4110 001 1100 04101	

Further information is in the detailed findings below.

Beatrice House

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to the coronavirus pandemic we are looking at the preparedness of care homes in relation to infection prevention and control. This was a targeted inspection looking at the infection control and prevention measures the provider has in place.

This inspection took place on 17 March 2021 and was announced.

Is the service safe?

Our findings

S5-How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
