Summary of findings

Overall summary

Willow Gardens Residential and Nursing Home is a care home registered to provide personal and nursing care to up to 46 people. At the time of this inspection there were 33 people living at the home, some of whom were living with dementia.

We found the following examples of good practice:

- Staff were wearing the required personal protective equipment (PPE), donning and doffing PPE correctly and disposing of used PPE safely and in line with the relevant national guidance.
- A testing programme was in place to frequently test staff and people living at the home.
- The environment was clean and hygienic. Cleaning schedules were in place and cleaning was frequently carried out throughout the day.
- The home had built a screened and heated self-contained external pod to enable family and friends to safely visit people living at the home.

Further information is in the detailed findings below.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?

Willow Gardens Residential and Nursing Home

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to the coronavirus pandemic we are looking at the preparedness of care homes in relation to infection prevention and control. This was a targeted inspection looking at the infection control and prevention measures the provider has in place.

This inspection took place on 27 January 2021 and was announced.

Is the service safe?

Our findings

S5□ How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
