Summary of findings

Overall summary

Sadlers Place are registered to provide accommodation and personal care for up to 9 people who may have a diagnosis of learning disabilities, physical disabilities or sensory impairment. At the time of the inspection, there were 8 people living at the home.

We found the following examples of good practice.

- ☐ Personal Protective Equipment including masks, gloves and aprons were available to visitors on entry to the building. A screening tool was completed prior to entry to ensure any visitors had not been exposed to COVID-19. Visitors were required to undertake a lateral flow test prior to visiting the home.
- ☐ Staff had received training in how to use personal protective equipment (PPE) and staff practice in donning and doffing was monitored by management to ensure safe application of PPE.
- ☐ The management implemented a tracking system to ensure staff completed COVID-19 testing in line with current national guidance. This was monitored by a dedicated team set up by the provider to monitor compliance with COVID-19 testing.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?

Further information is in the detailed findings below.

Inspected but not rated

Sadlers Place

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to the COVID-19 pandemic we are looking at how services manage infection control and visiting arrangements. This was a targeted inspection looking at the infection prevention and control measures the provider had in place. We also asked the provider about any staffing pressures the service was experiencing and whether this was having an impact on the service.

This inspection took place on 16 February 2022 and was announced. We gave the service 24 hours notice of the inspection.

Is the service safe?

Our findings

Staffing

- The provider told us they had measures in place to mitigate the risks associated with COVID-19 related staff pressures

How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.

From 11 November 2021 registered persons must make sure all care home workers and other professionals visiting the service are fully vaccinated against COVID-19, unless they have an exemption or there is an emergency.

- The Government has announced its intention to change the legal requirement for vaccination in care homes, but the service was meeting the current requirement to ensure non-exempt staff and visiting professionals were vaccinated against COVID-19.
