Summary of findings

Overall summary

Brockhampton Court Care Home with Nursing is a care home providing accommodation, nursing and personal care to a maximum of 58 people, specialising in supporting people at end of life. At the time of our visit 34 people lived at the home.

We found the following examples of good practice.

- Visitors to the home were invited to wash and sanitise their hands, had their temperatures taken and completed a Covid-19 screening questionnaire prior to entering the home. Personal protective equipment were available for visitors to use. There was clear information on display on arrival to the home to ensure visitors followed guidance and procedures to ensure compliance with infection prevention control.
- People were supported to maintain contact with relatives and friends who were important to them through video, social media and telephone calls. The management team had maintained regular contact with relatives through emails, social media and telephone calls to keep them informed about the wellbeing of their family member. A 'visiting pod' was under construction at the time of our visit to introduce family visits when it was safe to do so.
- Arrangements had been introduced for staff to appropriately social distance as much as possible, during breaks and staff used a separate entrance to access the home.
- People who had tested positive for Covid-19 self-isolated in line with current guidance; whilst ensuring those people testing negative were kept separate as much as possible for the duration of the isolation period.
- Clinical waste and laundry were handled in line with government guidance.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?

Further information is in the detailed findings below.

Brockhampton Court Care Home with Nursing

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to care homes with outbreaks of coronavirus, we are conducting reviews to ensure that the Infection Prevention and Control practice was safe, and the service was compliant with IPC measures. This was a targeted inspection looking at the IPC practices the provider has in place.

This inspection took place on 10 December 2020 and was announced.

Is the service safe?

Our findings

S5 How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were somewhat assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
