Summary of findings

Overall summary

We found the following examples of good practice.

- Staff wore appropriate PPE and followed the current guidance. All visitors and staff were asked to complete a health declaration stating they were free from any COVID-19 symptoms. Hand sanitiser was provided in the entrance area and visitors were required to wear a mask.
- Staff helped people keep in touch with their family and friends through the use of technology.
- Up to date infection control policies and procedures were in place and adhered to.
- Daily management briefings about COVID ensured information was shared with staff.

Further information is in the detailed findings below.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?

We were assured the service was following safe infection prevention and control procedures to keep people safe.

Inspected but not rated

Lang Riggs House

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

This was a targeted inspection looking at the infection control and prevention measures the provider has in place. As part of CQC's response to the coronavirus pandemic we are conducting a thematic review of infection control and prevention measures in care homes.

This inspection took place on 30 October 2020 and was announced. The service was invited to take part in this thematic review which is seeking to identify examples of good practice in infection prevention and control.

Is the service safe?

Our findings

S5 How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
