Summary of findings

Overall summary

Avalon Park Care Home is a residential care home providing personal care for up to 60 people. At the time of our inspection there were 31 people living at the home. Accommodation is provided over two floors and consists of single bedrooms with en-suite facilities.

We found the following examples of good practice.

The home had comprehensive policies and procedures to manage any risks associated with the COVID-19 pandemic. This included the management of people with a COVID-19 positive diagnosis. The provider had a designated COVID-19 lead who notified all care services they provided of updates to government guidance. The policies and procedures were updated regularly following any changes in national guidance.

People living in the home and their next of kin were supported to maintain contact. This included designated essential carers. Each person living at the home had a contact and visitors plan in place. In the event of a person contracting COVID-19 visits were arranged by appointment and a visiting 'booth' was available to facilitate a safe visit. In addition people were supported to maintain contact by the telephone and 'FACETIME'.

A programme of regular COVID-19 testing for both people in the home, staff, essential carers and visitors to the home was implemented. All visitors, including professionals were subject to a range of screening procedures, including showing evidence of vaccination and a negative lateral flow test before entry into the home was allowed.

There was an ample supply of Personal Protective Equipment (PPE) for staff and any visitors to use. Hand sanitiser was readily available throughout the service. Staff had received updated training on the use of PPE and we observed staff wearing it correctly during our inspection. Clear signage and information was in place throughout the home to remind staff of their responsibilities.

Daily cleaning schedules were implemented by housekeepers and all staff were involved in undertaking touch point cleaning.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?

Further information is in the detailed findings below.

Avalon Park Care Home

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008

As part of CQC's response to the COVID-19 pandemic we are looking at how services manage infection control and visiting arrangements. This was a targeted inspection looking at the infection prevention and control measures the provider had in place. We also asked the provider about any staffing pressures the service was experiencing and whether this was having an impact on the service.

This inspection took place on 7 January 2022 and was announced. We gave the service 24 hours' notice of the inspection.

Is the service safe?

Our findings

Staffing

- The provider told us they had measures in place to mitigate the risks associated with COVID-19 related staff pressures.

How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
- We were assured the provider was facilitating visits for people living in the home in accordance with the current guidance.

From 11 November 2021 registered persons must make sure all care home workers and other professionals visiting the service are fully vaccinated against COVID-19, unless they have an exemption or there is an emergency.

- The service was meeting the requirement to ensure non-exempt staff and visiting professionals were vaccinated against COVID-19.
