Summary of findings

Overall summary

Revitalise Sandpipers provides short breaks for people living with a disability and their supporters / carers. The service offers short breaks in a relaxed, holiday style environment with a variety of trips, entertainment and activities. People who use the service are supported by a team of staff and volunteers. The service can accommodate up to 38 people.

There were 13 people being supported at the time of the visit.

We found the following examples of good practice.

- The service had responded well to the changing threat of COVID-19. Good liaison with statutory bodies had equipped the manager and staff with the latest knowledge so that people were receiving appropriate support.
- The home continued to have positive liaisons with the local spinal injuries unit and provided ongoing support and rehabilitation for up to five people. Appropriate cohorting was in place in line with best practice. Health care professionals were engaged with the support that people received at the service.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?

We were assured the service were following safe infection prevention and control procedures to keep people safe.

Inspected but not rated

Revitalise Sandpipers

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

We received information of concern about infection control and prevention measures at this service. This was a targeted inspection looking at the infection control and prevention measures the provider has in place.

This inspection took place on 6 November 2020 and was announced.

Is the service safe?

Our findings

How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.

We have also signposted the provider to resources to develop their approach.
