Summary of findings

Overall summary

The Granby is a residential care home providing personal and nursing care to 63 people aged 65 and over at the time of the inspection. The care home can accommodate up to 76 people across two separate floors, each of which has separate adapted facilities.

We found the following examples of good practice.

Visiting to the home took place as per current guidance and appropriate testing and checks were in place. The home had ample supplies of appropriate PPE which was stored hygienically and kept safe.

Staff were provided with appropriate areas to put on, take off and dispose it safely. Staff completed online training including putting on and taking off PPE, hand hygiene and other IPC and COVID-19 related training and updates.

The service was meeting the requirement to ensure non-exempt staff and visiting professionals were vaccinated against COVID-19.

The provider's infection prevention and control policy was up to date and had been updated regarding COVID-19 government guidance. Risk assessments for staff and people were in place to minimise further risks.

Social distancing practices were in place for people and staff in communal areas and where appropriate and this was carried out safely. Any new admissions to the home were carried out safely and in according to government guidance.

The registered manager ensured extra cleaning of the home took place and that regular checks were carried out ensure infection prevention and control standards were met. Risk assessments relating to COVID-19 were in place for people who used the service and staff.

People and staff were tested regularly which helped identify cases of COVID19 in a timely manner.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?

Further information is in the detailed findings below.

Inspected but not rated

The Granby

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to care homes with outbreaks of COVID-19, we are conducting reviews to ensure that the Infection Prevention and Control (IPC) practice is safe and that services are compliant with IPC measures. This was a targeted inspection looking at the IPC practices the provider has in place. We also asked the provider about any staffing pressures the service was experiencing and whether this was having an impact on the service.

This inspection took place on 20 January and was unannounced.

Is the service safe?

Our findings

Staffing

- The provider told us they had measures in place to mitigate the risks associated with COVID-19 related staff pressures

How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
- We were somewhat assured that the provider was using PPE effectively and safely.

From 11 November 2021 registered persons must make sure all care home workers and other professionals visiting the service are fully vaccinated against COVID-19, unless they have an exemption or there is an emergency.

- The service was meeting the requirement to ensure non-exempt staff and visiting professionals were vaccinated against COVID-19.

We observed some use of PPE that was not always in line with current government guidance. The registered manager took appropriate steps to address this following our inspection.

We have also signposted the provider to resources to develop their approach.
