Summary of findings

Overall summary

32 Sunnyfield is a residential care home for three people with a range of needs. The home offers accommodation and support to adults who have a learning disability, personal disorders, mental health conditions and complex needs which arise from their diagnosis. At the time of our inspection there were three people living at 32 Sunnyfield.

We found the following examples of good practice.

The provider had systems and processes in place in line with guidance to ensure visitors to the home did not introduce and spread Covid-19.

Staff followed government guidance in relation to PPE. All staff were wearing face masks. The home had sufficient supplies of PPE.

All staff and people living at the service received weekly Covid-19 testing. Appropriate processes were in place should anyone display any symptoms of Covid-19.

The premises were clean and tidy. There was a daily routine of cleaning.

Staff supported people's social and emotional wellbeing.

All staff had undertaken training in infection prevention and control (IPC) and PPE.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?

Further information is in the detailed findings below.

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to the coronavirus pandemic we are looking at the preparedness of care homes in relation to infection prevention and control. This was a targeted inspection looking at the infection control and prevention measures the provider has in place.

This inspection took place on 12 February 2021 and was announced.

Is the service safe?

Our findings

S5□ How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
