Summary of findings

Overall summary

Davies Court provides long term, respite and intermediate care to older people. Some people using the service were living with dementia. Davies Court can accommodate up to 60 people in four separate units. The service is located in the town of Dinnington, Rotherham. On the day of the inspection the total number of people using the service was 43.

We found the following examples of good practice:

Easy to understand information was displayed around the home. Risk assessments were in place around supporting people's communication needs if this was necessary due to a learning disability or dementia.

The service was accessing the government testing scheme, and this was assisting them to identify and prevent an outbreak.

Robust cleaning schedules were in place and monthly audits were carried. Prompt action was taken to address any shortfalls identified.

The registered manager and senior staff were aware of the latest government guidelines to support good compliance.

We were assured this service met good infection prevention and control guidelines as a designated care setting.

Further information is in the detailed findings below.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Davies Court

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

This was a targeted inspection looking at the infection control and prevention measures the provider has in place. As part of CQC's response to the coronavirus pandemic we are conducting a review of infection control and prevention measures in care homes.

The service had been identified for use by the Local Authority as a designated care setting in response to the Winter Plan for people discharged from hospital with a positive Covid-19 status. This inspection was to ensure that the service was compliant with infection control and prevention measures.

This inspection took place on 1 December 2020 and was announced.

Is the service safe?

Our findings

S5 How well are people protected by the prevention and control of infection?

- We were assured the provider was preventing visitors from catching and spreading infections.
- We were assured the provider was meeting shielding and social distancing rules.
- We were assured the provider was admitting people safely to the service.
- We were assured the provider was using PPE effectively and safely.
- We were assured the provider was accessing testing for people using the service and staff.
- We were assured the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured the provider's infection prevention and control policy was up to date.
