Summary of findings

Overall summary

Fieldhouse Care Home is a purpose-built home in Rochdale. It provides accommodation to a maximum of 46 older people who require assistance with personal care. There are 38 single and four double bedrooms on two floors. Five of the single rooms have an en-suite facility. There is a garden area at the rear of the building. There were 35 people accommodated at the home on the day of inspection.

We found the following examples of good practice.

The provider had created a safe and dedicated visiting room to allow residents to see and speak to their friends and relatives. The room had an airtight divider screen, intercom system and external door. The room was well-ventilated and cleaned between visitors.

The provider was following best practice guidance in terms of ensuring visitors to the home did not spread COVID-19. Staff were adhering to personal protective equipment (PPE) guidance and practices, and there was a dedicated room for staff to change before and after their shift. The home has had no positive COVID-19 cases and all staff and residents had received their first COVID-19 vaccination.

Social distancing systems were in place in communal areas and clear plans were in place for those who were required to self-isolate. For those residents who struggled with social distancing additional support was provided.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?

Further information is in the detailed findings below.

FieldHouse Care Home Limited

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to the coronavirus pandemic we are looking at the preparedness of care homes in relation to infection prevention and control. This was a targeted inspection looking at the infection control and prevention measures the provider has in place.

This inspection took place on 27 January 2021 and was announced.

Is the service safe?

Our findings

S5□ How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
