Summary of findings

Overall summary

Glenfields Care Home Limited is a residential home providing care to 16 people aged over 65 and over at the time of the inspection. The service can support up to 28 people.

We found the following examples of good practice.

- Systems were in place to isolate people with COVID-19 to minimise transmission. The service had good supplies of personal protective equipment (PPE) that were readily available in stations throughout the service.
- People who were isolating had their own dedicated staff to meet their support needs. Staff maintained social distancing where possible and the environment promoted people to remain socially distanced.
- Staff demonstrated a good understanding of the appropriate application and removal of PPE. Clinical waste bins were positioned so that staff could access them when required.
- The environment was very clean and additional cleaning was taking place including frequently touched surfaces.
- At the time of our visit the service was closed for non-essential visitors. A visitor's protocol was in place to ensure anyone entering the service was temperature tested, completed hand disinfection and provided with information to remain safe during their visit.

Further information is in the detailed findings below.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Glenfields Care Home Limited

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to care homes with outbreaks of coronavirus, we are conducting reviews to ensure that the Infection Prevention and Control practice was safe and the service was compliant with IPC measures. This was a targeted inspection looking at the IPC practices the provider has in place.

This inspection took place on 13 January 2021 and was announced.

Is the service safe?

Our findings

S5□ How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.

We have also signposted the provider to resources to develop their approach.
