Summary of findings

Overall summary

About the service

Castlerea House is a residential home providing personal care for up to 10 people. The accommodation is set in one building, across three floors. There were 10 people living at the home at the time of this inspection.

We found the following examples of good practice.

The home had designated staff that only worked at this setting.

Meal times had been split into two sittings to reduce contact between people.

The home was taking part in regular COVID testing.

People's laundry was being laundered separately to reduce the risk of cross contamination.

Staff were observed wearing appropriate personal protective equipment (PPE).

Further information is in the detailed findings below.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?

This was a targeted inspection, looking only at infection prevention and control. No ratings were awarded during this inspection.

Inspected but not rated

Castlerea House

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to care homes with outbreaks of coronavirus, we are conducting reviews to ensure that the Infection Prevention and Control practice was safe and the service was compliant with IPC measures. This was a targeted inspection looking at the IPC practices the provider has in place.

This inspection took place on 23 November 2020 and was announced.

Is the service safe?

Our findings

S5□ How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.

We have also signposted the provider to resources to develop their approach.
