# Summary of findings

## Overall summary

### About the service

Cherry Blossom Care Home is a residential care home providing personal and nursing care to 70 older people at the time of the inspection. The service can support up to 80 people on three floors, each of which has separate adapted facilities.

We found the following examples of good practice.

The service was not allowing any visiting at the service at the time of this inspection, unless for exceptional circumstances for example, if a person was receiving end of life care.

Any person entering the building had their temperature taken, washed their hands, completed a health questionnaire and wore full personal protective equipment (PPE).

The building was clean and free from clutter. The deputy manager told us that staff were undertaking cleaning of high touch points on a regular basis. We witnessed this during our inspection.

People were supported by staff in full PPE, whether that person was COVID-19 positive or negative. This was to protect both staff and people living in the service from spreading infection.

Posters were on display to prompt people and staff to social distance.

Staff changed into their uniform and applied their PPE before starting work. Each floor had their own room for staff to change and store their belongings. Spot checks on staff competencies were in place re handwashing and hand hygiene and PPE assessments.

The deputy manager told us that they were working collaboratively with colleagues from the Local Authority and CCG (Clinical Commissioning Group) and were well supported as a result.

Whole home testing was in place for people, visitors and the staff.

## The five questions we ask about services and what we found

We always ask the following five questions of services.

### **Is the service safe?**

Details are in our safe findings below.

# Cherry Blossom Care Home

## **Detailed findings**

### Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to care homes with outbreaks of coronavirus, we are conducting reviews to ensure that the Infection Prevention and Control practice was safe, and the service was compliant with IPC measures. This was a targeted inspection looking at the IPC practices the provider has in place.

This inspection took place on 22 January 2021 and was unannounced.

# Is the service safe?

## Our findings

S5□ How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
