# Summary of findings

## Overall summary

The Chestnuts Care Home is a nursing and residential care home for up to 41 individuals with a wide range of needs, including complex physical, dementia and end of life care. Rooms were located over two floors and there was an accessible lift available to use. At the time of our inspection there were 37 people living at home.

We found the following examples of good practice.

There were systems and processes in place, in line with guidance, to ensure visitors to the home did not introduce and spread Covid-19.

Staff followed government guidance in relation to personal protective equipment (PPE). All staff were wearing face masks. The home had sufficient supplies of PPE.

All staff and people living at the home were being Covid-19 tested in line with guidance and had received their first vaccination. Appropriate processes were in place should anyone display any symptoms of Covid-19.

The care home was clean, well maintained and odour-free. There were enhanced cleaning schedules in place.

Staff supported people's social and emotional wellbeing. Alternative forms of maintaining social contact were in place including regular telephone and video calls, and use of closed social media groups. The home had made adaptations to a conservatory to allow partitioned visiting for people.

All staff had undertaken training in infection prevention and control (IPC) and the donning and doffing of PPE.

Policies and audits relating to infection prevention control, including coronavirus, were up-to-date.

## The five questions we ask about services and what we found

We always ask the following five questions of services.

### **Is the service safe?**

Further information is in the detailed findings below.

**Inspected but not rated**

# The Chestnuts Care Home

## **Detailed findings**

### Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to the coronavirus pandemic we are looking at the preparedness of care homes in relation to infection prevention and control. This was a targeted inspection looking at the infection control and prevention measures the provider has in place.

This inspection took place on 17 February 2021 and was announced.

# Is the service safe?

## Our findings

S5□ How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
