Summary of findings

Overall summary

Bennett Lodge is a care home and it is registered to provide care and accommodation for up to 48 older people, some of whom may be living with dementia. There were 42 people living at the service at the time of our inspection.

We found the following examples of good practice.

Risk assessments had been carried out on people using services and staff belonging to higher risk groups and actions had been taken to reduce the risks.

The service used isolation, cohorting and zoning effectively.

Infection Prevention and Control Policy was being updated, including a COVID-19 IPC Policy.

Staff had all completed infection prevention and control training, and this included the correct procedures for using PPE.

The service was clean throughout. There were appropriate procedures to ensure infection control risks were minimised.

The registered manager had contingency plans in place to prepare for an outbreak and manage any staff absences effectively.

The registered manager was very proud of the staff team and their commitment to keeping people safe.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?

Further information is in the detailed findings below.

Bennett Lodge

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to care homes with outbreaks of COVID-19, we are conducting reviews to ensure that the Infection Prevention and Control (IPC) practice is safe and that services are compliant with IPC measures. This was a targeted inspection looking at the IPC practices the provider has in place.

We also asked the provider about any staffing pressures the service was experiencing and whether this was having an impact on the service.

This inspection took place on 3 February 2022 and was unannounced.

Is the service safe?

Our findings

Staffing

- The provider told us they had measures in place to mitigate the risks associated with COVID-19 related staff pressures

How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
- The provider was facilitating visits for people and relatives in accordance with the current government guidance.
- The government has announced its intention to change the legal requirement for vaccination in care homes, but the service was meeting the current requirement to ensure non-exempt staff and visiting professionals were vaccinated against COVID-19.

We have also signposted the provider to resources to develop their approach.
