# Summary of findings

## Overall summary

Wood Way Lodge is a care home providing accommodation and personal care to a maximum of four people, living with a learning disability. At the time of our visit three people lived at the home.

We found the following examples of good practice.

- Visitors to the home had their temperatures taken and completed a Covid-19 screening questionnaire prior entering the home. Personal protective equipment (PPE, face masks, gloves and hand sanitising gel) were available for visitors to use.
- People were supported to maintain contact with relatives and friends who were important to them through video and telephone calls. The management team had maintained regular contact with relatives through emails and telephone calls to keep them informed about the wellbeing of their family member.
- Staff changed their clothing upon starting and finishing their shifts, to reduce the risk of cross infection.
- People who had tested positive for Covid-19 self-isolated in line with current guidance.

Further information is in the detailed findings below.

## The five questions we ask about services and what we found

We always ask the following five questions of services.

### **Is the service safe?**

We were assured the service were following safe infection prevention and control procedures to keep people safe.

**Inspected but not rated**

# Wood Way Lodge

## **Detailed findings**

### Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to care homes with outbreaks of coronavirus, we are conducting reviews to ensure that the Infection Prevention and Control practice was safe, and the service was compliant with IPC measures. This was a targeted inspection looking at the IPC practices the provider has in place.

This inspection took place on 20 November 2020 and was announced.

## Is the service safe?

### Our findings

S5 How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were somewhat assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
