Date of inspection visit: 30 March 2020
Date of publication: 23/04/2020

This report describes our judgement of the quality of care at this service. It is based on a combination of what we found when we inspected, information from our ongoing monitoring of data about services and information given to us from the provider, patients, the public and other organisations.

Ratings

Overall rating for this location

Good

Are services safe?

Good

Overall summary

We carried out a desk top follow up inspection at KH Medical on 30 March 2020. At this inspection we followed up on breaches of regulations identified at a previous inspection on 19 November 2019.

We based our judgement of the quality of care at this service on a combination of:

- Documentation and information from the provider and information from our ongoing monitoring of data about services.

At the last inspection in November 2019 we rated the practice as requires improvement for providing safe services because:

- Systems and processes were not in place to assess the security of the premises and risks to health and safety in order to identify risks and act to address them.
- There were shortfalls in the management of controlled drugs.

At this inspection, we found the provider had satisfactorily addressed these issues.

We have rated this practice as good for being safe and good overall.

We rated the practice good for providing safe services because:

- Security of the premises and risks to health and safety had been assessed and actions identified to address risks.
- Action had been taken to review the medicines stocked at the practice to ensure they were appropriately checked and stored.

Details of our findings and the evidence supporting our ratings are set out in the evidence tables.

Dr Rosie Benneyworth BM BS BMedSci MRCGP

Chief Inspector of Primary Medical Services and Integrated Care

Our inspection team

Our inspection team was led by a CQC inspector.

Background to KH Medical

KH Medical, also known as Lundwood Medical Centre, is located at Lundwood Medical Centre Pontefract Road, Lundwood, Barnsley, S71 5PN. There is a branch surgery at Monk Bretton Health Centre, and at Cudworth Health Centre, Carlton Street, Cudworth, Barnsley, S72 8SU.

The registered manager is owner of the premises at Lundwood and Monk Bretton. The practice is registered with the CQC to carry out the following regulated activities - diagnostic and screening procedures, treatment of disease, disorder or injury, surgical procedures and maternity and midwifery services.

The practice provides NHS services through a Personal Medical Services (PMS) contract to 4,444 patients. The practice is part of the Barnsley Clinical Commissioning Group (CCG) which is made up of 32 general practices.

The provider is a partnership between two GP's who registered with the Commission in April 2013. Each GP

partner has their own GP practice location. This practice has one male GP partner, supported by three practice nurses, a practice administrator and a team of administrative and reception staff.

The practice is an active member of the local primary care network. The National General Practice Profile states that 98.1% of the practice population is from a white background with the remainder of the population originating from black, mixed or other non-white ethnic groups.

Information published by Public Health England, rates the level of deprivation within the practice population group as two, on a scale of one to ten. Level one represents the highest levels of deprivation and level ten the lowest. Male life expectancy is 78 years compared to the national average of 79 years. Female life expectancy is 81 years compared to the national average of 83 years.
